

# What You Need to Know: Call for Data & v24 Changes

Complete Webinar Q & A

The FACS page link for GenEDITS 5 doesn't work. Is there a direct link?

<https://www.cdc.gov/cancer/npcr/tools/edits/index.htm>

New breast surgery codes are not in the current CRStar software dropdowns. Should we manually add these codes in?

No, please do not manually add these in as it can cause issues in the system with other fields directly related to this one and processes that run in the background.

If our reference year is 2010, we only have to go back to 2010 correct?

Yes, since your reference year is after the 2008 cut off, you would use your reference year instead.

Are blank FIN okay?

Yes, blank FIN number fields are okay. You are looking for erroneous characters or numbers.
