CRStar by Health Catalyst
Enhancements & Corrections
May 2, 2024

Enhancements

- CRStar by Health Catalyst has been upgraded to Version 24 to meet all standard setter requirements
- The ICD-O-3.2 histology codes and descriptions have been updated
- Breast, Lung, Thyroid, Colon, and Pancreas now have the B surgery code list for DX 2024+ cases
- All the CRStar Quicklinks have been updated to reflect the most recent versions of manuals and/or reference sites
- Updated Quality Measures have been released. Please see the CRStar Insight "New Accreditation and Quality Measure Reports" for details (found under "Reporting" on the CRStar Resource Page)
- New Comparison Reports have been released, please see CRStar Insight "Comparison Reports" for details (found under "Reporting" on the CRStar Resource Page)
- Cancer PathCHART has been included, please see the CRStar Insight "Cancer PathCHART" for details (found under "Abstracting" on the CRStar Resource Page)
- NCDB and RCRS exports are now in v24 layout
- The older CPM Report menu items has been removed
- The following states now have the v24 state export available: **GA, IA, IL, MN, MT, NJ, SC, TN, TX, and WI**

Corrections

- A correction was made to the Neoadjuvant Therapy Effect field to show proper choices for version 9 schemas
- The pre-2018 staging screen has been corrected to derive the collaborative staging screen properly for Breast Paget's disease
- A correction has been made for descriptions of grade, summary stage, and other schema related fields to display in List Pop reports
- The Patient Lookup grid has been adjusted to prevent the delay of results when searching on DOB
- When using the SS Death Index from within a patient abstract, it will now utilize the SSN in the correct format to complete the search properly
- The Treatment by Physician report option has been updated to allow for larger populations to work

State Specific Updates

- Iowa – The state screen has been updated and the v24 export is available for use. Please refer to the CRStar Insight "Iowa State Specific Fields" for more details (found under "Individual State Information" on the CRStar Resource Page)

NOTE: There will be a v24a metafile released from NAACCR in mid to late May, so please be aware there are known bad edits in these current metafiles and data should be reviewed with caution (i.e. Edit Tags IL7066 and N7067 are corrected in v24a)

Metafile Names	
Georgia	GA_v24
Illinois	IL_v24
Iowa	IA_v24
