Annual Case Reports to MCR

The Maryland Cancer Registry asks that all registries submit a list of Nonreportable and Abstracted cases to the MCR on an annual basis.

Annual Nonreportable List

A population of all Nonreportable cases should be selected and submitted to the MCR at the same time as the MCR DI request. Below is a sample population that can be used if registries are using the State Report Flag of N to capture nonreportable cases.

Report Label: Annual NonReportable List for MCR Do not Modify

Created By: JR

Requested On: 04/17/2024

Choose the Items for Your Report

Item Nbr	Item Description	B/S/L	C/D	Display Length	Limiting Values
11	9 Sex	L	C	20	
12	150 Date of Diagnosis	L	C	20	
13	862 Date of First Contact	L	C	20	
14	25 Date of Last Contact	L	C	20	
15	147 Class of Case	L	C	20	
16	133 Primary Site Code	L	C	20	
17	152 Laterality	L	C	20	
18	153 ICD-O Histology Code	L	C	4	
19	198 Behavior	L	C	20	
20	13 Text Field (PE/Remarks)	L	C	150	

The Nonreportable population label should be run through the report label above and sent to Excel, then submitted to the MCR at the time of the MCR DI request.

Note: The Facility ID (FIN) will need to be entered in the first cell below the header, then dragged and copied to fill all cells in the FIN column.

Annual Accession and Submission List

The MCR requests that once a facility has completed the abstraction of a full year of cases, a list of those cases be submitted to them for review. A sample Select a Population label has been included below.
